

A body as fluffy as a bunny
A head as spiky as a cactus
Eyes as blue as the ocean
A nose as round as a sphere
Teeth as pointed as a sharks tooth
Skin as blue as the sky
Fingers as purple as a grape
Feet as skinny as a toothpick

I used many elements of art in creating my monster. I used mainly cool colors, like purple, green, and blue in my simile monster, and warm colors such as orange, yellow, red, and some pink in my background. I used a little green to shade the tips of my monster's head and combined some shades of blue in my monster's body. I also used organic and geometric shapes.
